Tobey+Davis, Intern Architect, 1997-1998

Mr. Rousos is the consummate project manager with in-depth experience in a wide variety of building and construction types. His background in design allows him to understand and maintain the project's aesthetic values and design intent while also leading the coordination process and ensuring the project is delivered on time and on budget. His hard work and dedication give him a great advantage when researching and generating technically innovative design solutions that surpass the most discerning person's expectations.
