

ARIEL WESTMARK

RA, NCARB

Associate

ariel.westmark@pfarc.com

Ariel is an integral element of the design team at FILLAT+, providing rendering skills, team leadership, AutoCAD and Revit drafting, and a positive attitude for our Washington, DC office. She has spent years on three prominent projects, coordinating the Construction Administration phases that later roll-in lessons learned into subsequent projects to improve those results. Ariel's attention to detail and work ethic are perfect examples of what FILLAT+ strives for in our firm.
