**FILLAT+**  
ARCHITECTURE

Julian Barlow started as an intern with FILLAT+ Architecture in 2018. Since then, he has been applying his existing design skillset to an architectural practice. Under the mentorship of his peers, he has developed aptitude in architectural drafting and modeling in programs such as Revit, AutoCAD, and SketchUp, with additional capabilities in 3D printing, graphic design, and marketing. He has also acted as a coordinated construction administration on two projects.
