FILLAT+
ARCHITECTURE

Sergio Martinez is a socially responsible and environmentally conscious designer. He designs for people to live in harmony with nature. He works with the utmost care and reverie for the materials with a meticulous attention to detail. He explores the aesthetic possibilities and limitations through an investigation of the logic of the material and its potential. In all of his work, Sergio aspires to create environmentally responsible, beautiful, authentic works of integrity that provide people the opportunity to poetically dwell.
